## **ENTRY PACK**

**Rounds 1 & 2**  
**13<sup>th</sup> – 14<sup>th</sup> April**

### **Donington Park National**

*Castle Donington, Derby, DE74 2RP*

Enclosed:

- Final Instructions
- Supplementary Regulations
- Paddock Plan
- Timetable
- Entry List
- Site Map
- Season Briefing Notes
- MSVR Safety Notice

Thank you for entering the first two rounds of the Monoposto Championship at Donington Park. This meeting will be held on the National Circuit. There is a site map included in this pack which shows the layout, please note the National Circuit does not use the Melbourne Loop.

Please find enclosed in this entry pack all of the information that you need for the meeting. Make sure you read all of this information carefully.

### **Format and Grids:**

This meeting will use the twin header format which means there will be a qualifying and race each day.

We have reconfigured the grids from the usual split to enable us to accommodate all entries. Grid 1 consists of Mono Moto 1000, Mono Moto 1400 and Classic. Grid 2 is for Mono F3, 2000, 1800 and 1600.

### **Drivers Briefings:**

The drivers briefings will not be held at the time advised on the timetable, they will instead be held at:

10am for Grid 1  
1.30pm for Grid 2

This is after the qualifying sessions, but any drivers who are new to the circuit will need to make themselves known to Terry Scannell, our Clerk of the Course, before qualifying for a separate briefing.

The briefing will be held in the briefing room located out the back of Garage 39 instead of the media centre.

### **Assembly Area:**

All cars will assemble on the left hand side of the Melbourne Loop for qualifying as per usual. However, due to the large grid sizes and practicality of assembly on the grid, for every Monoposto race, the right hand side of the Melbourne Loop will be used for assembly prior to forming on the grid.

### **Tyres:**

We have continued using the tyre rule in the championship regulations for the F3 class only. This allows a maximum of 6 sets of slick tyres for the whole championship.

All competitors in the F3 class need to make sure to let me know the unique permanent identification number for your selected tyres prior to use on the circuit in any qualifying or race sessions, so this can be recorded on your tyre record sheet.

On the subject of tyres, both Pirelli and Avon will be at Donington. Avon have committed to attending all of our championship events this season.

**Mono Hub:**

The Mono Hub will be located in the pop-up next to the AViT truck for this meeting. Complimentary tea, coffee and biscuits will be served from the Hub over the weekend. All Monoposto competitors and teams are welcome to join us in the hub.

There are some items available to purchase from the Mono Hub for your convenience, including rain lights, race numbers, novice stickers and statutory stickers (extinguisher, cut off etc). You can also order Monoposto merchandise from the Hub.

**Trophies:**

Back by popular demand this year are stickers for competitors coming 1<sup>st</sup>, 2<sup>nd</sup> or 3<sup>rd</sup> in their class. These will be given, along with trophies, during the prizegivings detailed on the timetable.

We will be continuing with the option to recycle trophies, so if you do not want to keep any trophies that you may win during the season, please return them after the prizegiving and they will be reused.

**Parking Arrangements:**

MSVR's parking marshal, Stephen Green, will be at Donington on Thursday, Friday and Saturday to aid with parking up. Rachel Lovett will be there from Thursday evening. The paddock will be available to access from Midday on Thursday for those who are not testing.

For those who are testing on Thursday/Friday and leaving their rig set up for the duration, please be considerate with parking and arrange your rig to make best use of the space available as we will have to fit everyone else in around you and we have a full entry for this meeting.

All non-working vehicles/trailers should be parked out of the way.

**Paddock Power:**

There are power pods located in the paddock which are available to use and we have been advised that there will not be a charge for using the power.

**Useful Contacts:**

For all event enquiries, issues or championship information please contact the Championship Coordinator, Rachel Lovett, on 07894 010132.

### 2. Social Media - MOTORSPORT UK have a strict policy regarding the use of Social Media.

<https://www.motorsportuk.org/assets/msasocialmediaguidelines-6.pdf>

#### **General Guidance**

- Don't write something that you wouldn't be prepared to say to someone.
- When posting on a social media website, assume that anybody can access that post.
- Check the privacy settings of your social media accounts. These settings determine the extent to which the information you share is publicly accessible.
- Determine whether you are participating in a personal or official capacity and consider whether your opinions and activity are appropriate in that context.
- Never share personal details such as home addresses and telephone numbers except with people that you know and trust, in which case it is advisable only to share such details via private messages.
- Remember that participating in social media results in your comments being permanently available and open to being re-published by other media outlets. It should be assumed that anything published in social media will remain available indefinitely, even if it is deleted from the original site.
- Respect confidentiality, stay within the legal framework and be aware that safeguarding, libel, slander, copyright and data protection laws apply.

- Be aware that your interaction with social media may attract interest from the wider media, so proceed with caution whether you are participating in an official or personal capacity.
  - Never use social media to insult anyone directly or indirectly.
  - MOTORSPORT UK Members who hold a position of trust and/or responsibility over young people (ie those under 18 years of age) in the course of their duties should be very careful when interacting with those young people via social media.
  - Beware the temptation to use the 'perceived' anonymity offered by some online portals to post unacceptable comments about events or individuals.
  - You should be mindful at all times that MOTORSPORT UK regulations and UK law continue to be applicable in the online environment.
3. Know when and where to sign on. If you want an upgrade signature give your upgrade card to the staff when you sign on. Pick the card up at the end of the day. Know the time and location of the **drivers briefing** and be there on time! You can be fined for non-attendance.
  4. Have your helmet and all racewear ready for inspection when the car is scrutineered.
  5. Be familiar with the procedures for **Protests and Appeals**. It's all in Section C of the MOTORSPORT UK Year Book. There are strict time limits and the costs of Protests and Appeals are in Appendix 1 of the Year Book. MSVR officials (in Race Administration) will give you the correct forms but cannot give you any advice.
  6. **Behaviour** – remember that abusive language or behaviour, physical assault, or threats of physical assault are all offences under the general regulations not only by you but by everybody associated with your entry.
  7. **Procedures** for Qualifying and Racing will vary from event to event. Make sure you know where you have to be and understand the correct procedure. Be in the right place at the right time! If you have a problem, let your coordinator know.
  8. **Race Standing Starts**: Generally, start countdown will commence at the 1 minute signal followed by 30 seconds and then the Green Flag will be displayed for the start of **one Green Flag lap**. Please complete this full lap of the circuit at a sensible speed – approx 4 minutes. Remember, if you have a problem on this lap and fall to the back you cannot take your grid position and must stay at the back.

On returning to the grid, when all cars are in position, the 5 second board will be shown. 5 seconds later the Red Lights will ALL be switched on. When the Red Lights are extinguished the start is given. The start lights are mounted on the gantry.
  9. **Practice starts** can only be carried out at the pit lane exit. When leaving the pit lane be prepared for a car to be stopped in this area. Do not stop on the track to practice your start or when approaching the starting grid where there will be other cars and, probably marshals.
  10. **Race Rolling Starts**: Cars will assemble on the grid in 2x2 grid formation. When signalled to do so cars will set off on a lap of the circuit behind a Pace Car with Yellow Lights flashing on the roof (outside the UK the roof lights may not be used). From the time when the lights are extinguished (or at a point indicated at the briefing) there should be no more changes of direction (zig-zagging) or acceleration or deceleration. When the Pace Car pulls into the pit lane, the pole position car will maintain a constant pace with cars passing over the grid boxes in 2x2 formation. The start is given when the Red Lights are switched off. Some races will permit passing as soon as the Red Lights go out while others do not allow passing until the start line itself. Remember, if you have a problem on this lap and fall to the back you cannot take your grid position and must stay at the back.
  11. **In exceptional circumstances the race may be started behind the Safety Car.**

In this case its flashing yellow/amber lights will be turned on at the one-minute signal. This is the signal to the Entrants/Drivers that the race will be started behind the Safety Car and it will remain at the front of the grid during the remainder of the countdown.

When the Green Flag is shown at the Start/Finish Line, the Safety Car will leave the grid and all cars will follow in single file in grid order no more than 5 (five) car lengths apart. The race will be deemed to have started when the Safety Car leaves the grid and the Green Flag is displayed.

Cars will leave the grid in single file grid order behind the Safety Car under the instruction of the Chief Start/Finish Line Marshal. Cars will remain in single file without overtaking, except that a car that falls behind may regain its grid position if the cars behind it could not avoid passing without unduly delaying the remainder of the field. In this case, Drivers may carefully overtake to re-establish their original starting grid order. If a car falls to the back of the grid, it must remain at the back of the grid.

Racing can commence when the GREEN flag is shown on the line after the Safety Car has pulled off. AT the end of a Safety Car period you can't overtake another car until you pass the Green Flag AT THE CONTROL LINE.

**12. Track limits:** You need to be aware of the track limit regulations and comply with them.

### MOTORSPORT UK Regulation Q14.4.2.

Drivers must use the track at all times and may not leave the track without a justifiable reason.

For the avoidance of doubt:

- The white lines defining the track edges are considered to be part of the track.
- A driver will be judged to have left the track if any wheel of the car either goes beyond the back edge of any kerb or goes beyond the white line where there is no kerb.

Note that Motorsport UK Regulation Q14.4.4 states: 14.4.4. Causing a collision, repetition of serious mistakes or **the appearance of a lack of control over the car (such as leaving the track)** will be reported to the Clerk of Course and **may entail the imposition of penalties** up to and including the disqualification of any driver concerned.

**13. Flag signals:**

### MOTORSPORT UK Regulation Q15.1

e) **Yellow flag – Waved:** Danger, slow down sufficiently to ensure that full control of the vehicle can be retained. No overtaking.

(f) **Yellow flag – Double Waved:** Great danger. Slow down considerably. Be prepared to suddenly change from the projected racing line, or take other evasive action including stopping if necessary. No overtaking. (This signal may be supplemented or replaced by flashing yellow light(s), as an added warning).

It must be evident that a driver has reduced speed; this means a driver is expected to have braked earlier and/or noticeably reduced speed in that sector.

For the safety of the marshals, please respect them.

**RED Flag:** Immediately cease driving at racing speed and proceed slowly, without overtaking, and with maximum caution to pits or start line obeying marshal's instructions, and being prepared to stop should the track be blocked.

**Blue Flags:** Please watch for Blue Flags. The onus is on the faster car to pass safely and the slower car should not suddenly change direction.

Be familiar with control flags that may be shown on the control line.

**14. Contact:** Avoidable contact will NOT be tolerated. Penalties may be applied in the event of any avoidable contact.

15. **Excessive and aggressive defending** will not be tolerated. MOTORSPORT UK Regulations state "In response to each attempted overtaking manoeuvre no more than one change of direction to defend a position is permitted. Any driver moving back towards the racing line having earlier defended his position off-line should leave at least one cars width between his own car and the edge of the track on the approach to the corner".
16. Please respect the **blend line** at the Pit Exit. Do not cross it when leaving the pit lane. Remember that most pit lanes have a speed limit of 60 km/h.
17. **Control Flags:** Control flags (Black/White, Black/Orange etc) with car numbers will normally be shown at the line. **Know where the position is and understand what the different signals mean and comply with them.**
18. **Safety Car:** be familiar with the Safety Car regulations. When you see the Safety Car (SC) boards & flags you should slow down progressively, cease racing and no overtaking. while at the same time closing the gaps. The aim is for the leader and all cars to be bunched together at around a 5 car gap to each other. The leader, on seeing the flags & boards should try to open a gap to the car in front so that, when it joins the track, the Safety Car can do so safely. During a Safety Car you can't pass other cars and should keep up with the cars in front of you. Don't leave big gaps. AT the end of a Safety Car period you can't overtake another car until you pass the Green Flag AT THE CONTROL LINE. Once the lights on the Safety Car are extinguished there must be no sudden acceleration/deceleration or 'zig-zagging'.
- In certain circumstances the Safety Car (with its lights on) may drive through the pit lane with the competing cars following behind it (for instance if there is an incident on the start / finish straight).
19. If you leave the circuit and are not able to continue please **communicate with the marshals** and comply with their instructions. If you are able please leave the car as quickly as possible and get to a place of safety behind the barriers. You may be requested to assist if the car is a straight tow.
20. There is normally a **Parc Ferme** and after the Chequered Flag your car needs to be there. Members of your team are not allowed in the Parc Ferme.
21. When not on the track there is a speed limit of 10 mph.
22. Know your responsibilities if you injure a marshal, official or spectator. See Motorsport UK Yearbook regulation H33.1.7.
23. **AT ALL TIMES** drive within the limit of your capability and that of the car. Be AWARE of what is happening around you. Give each other racing room. There is only one 'racing line' and that is when yours is the only car on track. Do not attempt overtaking manoeuvres that are marginal and likely to result in contact.
24. **RESPECT** your competitors, marshals and officials.

Wishing you all a very enjoyable and safe season.

**Terry Scannell**  
**Clerk of Course**
